

CARNEGIE LINE PROVIDES FOR ITS INCREASING TRADE

Have Let Contract for Hulls of Two New Steamers to Be Built this Spring

INCREASING COAL PRODUCTION

The Carnegie Steel Company on Monday closed a contract with the American Bridge Company for the construction of two steamboat hulls to be completed in the coming summer. The upper decks and machinery will be built and constructed by the company. They will be 33 feet wide, 175 long over all, equipped with compound condensing machinery, 15-inch high pressure, 30-inch low pressure and a 7-foot stroke, and four boilers. With the completion of these two boats the Carnegie Line will have a fleet of twelve steamers and 150 steel barges.

Seven steamers of the line are now engaged in towing coal from the upper pools of the river to the big by-product plant at Clairton, while the steamer Monitor has been practically rebuilt at the marine ways, and the Duquesne given an extensive line of repairs. The new supply boat C. S-2 which is being built at the Price boatyards in the Allegheny, is about two-thirds completed and will be placed in commission about the latter part of May.

It is evident the Carnegie Line is preparing for a great deal of additional activity on the part of their towing fleet, as with the opening of new coal fields, already under way, the output will be such that it will require the combined services of all their steamers to take care of the trade. It is anticipated that new mines in the third pool and increased production in the upper pools will be available some time during the coming summer.

CRAGO MENTIONED FOR HIGH HONORS

Republican members of the House Committee on Military Affairs who served on that body with Representative Thomas S. Crago, of Waynesburg, are getting actively behind the movement to make him assistant secretary of war to the new administration. Representative Crago will retire from Congress on March 4. In presenting his qualifications to President-elect Harding his friends have pointed out that his services in the Spanish-American war as well as membership in the Military Committee during the World War has qualified him for the post.

A New York educator advocates the burning of all Liberty bonds by their holders in order to lighten the country's tax burden. In other words, relieve the slacker of his unavoidable share of the war expenses and put the whole burden upon the conscientious patriot.

GEN. PERSHING MAY BE GUEST AT ELKS DINNER

Gen. John J. Pershing may be among the guests at the Washington Day dinner of the B. P. O. E., to be held Tuesday, February 22 in Pittsburgh. Gen. Pershing is a member of El Paso lodge and a special committee in Washington has wired that he may possibly attend.

COLONIALS LOSE TO DONORA TEAM

Charleroi Colonials were defeated at the H. T. A. C. Monday evening by the fast Donora Independents, in a close and interesting game. It was nip and tuck all the way through the game. The Colonials led in the first half by a score of 16 to 14, but in the second period the Donora came back strong and the game ended with a score of 23 to 22 in favor of the visitors.

Lineup:
Colonials—22 Gerard, F. McManus, P. McGuire, Estaque, C. Haunch, E. Protin, G. C. McManus, P. Ludwig, G. Parente.
Substitutes, Turner for P. McGuire; J. McGuire for Ludwig; E. McManus for Haunch, Erwin for Parente. Field goals, Estaque 2, Protin 2, Ludwig, P. McManus 3, Wise 5, Erwin. Foul goals, Wise 12 out of 22; P. McGuire 8 out of 14. Referee, Martin; time-keeper, Clement.

INSURANCE COMPANIES FILE THEIR ANSWERS

In the several suits of Jack Hirsch of Marianna against a number of insurance companies, claims on policies answers have been filed. As in previous suits, the companies aver the plaintiff has failed to comply with the terms of the agreement embodied in the several policies in question. It is claimed the total insurance on his stock of goods was largely in excess of the value of his stock of merchandise. It is also averred the plaintiff knows the cause of this fire, but that he has refused to impart this information.

BONUS BILL ON WAY THROUGH CONGRESS

Local government employees are greatly interested in the "bonus" provision of the executive and judicial annual appropriation bill now before the United States Senate. The measure provides a bonus of \$240 for employees, a feature which the House had stricken from the bill. The Senate restored it, and on Monday provided that the measure should also include mechanics employed at navy yards and arsenals. It is expected that the bonus provision will be accepted by the House, and the employees given the additional money.

Mrs. James A. Robinson was a business caller in Pittsburgh yesterday.

Outlining Work for the New Chamber of Commerce

The Board of Directors of the Chamber of Commerce met last evening in the Borough Building and transacted some important business. The question of incorporation was discussed and D. M. McCloskey was authorized to file an application for a court charter.

It was voted in accordance with the Constitution and By-Laws to bond the secretary and treasurer to the amounts of \$3,000 and \$1,000 respectively.

President Byerly announced that a committee of sixty members would be appointed to conduct the members forum meetings. Meetings of the forum are to be held every two weeks and the committee will be divided into four groups of fifteen and each group being responsible for the holding of a meeting once every two months. Guy Moffitt was appointed chairman of the Forum Committee and the four vice chairmen to assist him are Mrs. R. H. Rush, M. T. Crowley, T. L. Pollock and W. H. Milliken.

Each of the vice chairmen will appoint fourteen additional members. It was originally planned to hold the second meeting of the forum tonight but this has been postponed until next Monday evening to give the committee more time to organize properly.

C. E. Pratt, Secretary of the American Bridge Board of Trade was present as a candidate for the position of secretary. He answered many questions showing his knowledge of Chamber work. The Board however, will not elect their secretary until Wednesday, as the directors desire to interview another applicant from New York. The next regular meeting of the Board will be held Friday night when the Field Secretary of the American City Bureau will submit his final report. This report contains the Program of Work as compiled from the expressed wants of the membership and the directors will be guided by it in selection of the activities to be undertaken immediately.

PUPILS SUGGEST CIVIC FEATURES

What a Chamber of Commerce may do for a community by co-operative effort is shown in the number of suggestions recently made by the pupils of the Donora High schools when asked for their views as to what features would add to the attractiveness of their town. Among the many things mentioned were:

Swimming pool, Big gymnasium, Y. M. C. A., Elimination of bill boards, Children's playground, Public park, Public library, Community building, Clean up vacant lots, Fewer pool rooms, and boys under age kept out of pool rooms. Tree planting along the streets, First aid stations in schools. More houses, Public tennis courts, Public bathing beach.

As well as many other features, all of which would be applicable to more towns than Donora. All of the features mentioned above, as well as many more, would be desirable adjuncts to the civic affairs of Charleroi, and all of which can be obtained by the co-operation of all citizens working through the Chamber of Commerce.

LOCK FOUR FIREMEN HOLD ANNUAL SMOKER

The annual "smoker" of the volunteer Fire Department of Lock No. Four was held at the borough building Monday, at which time members of the fire department and borough officials were present. James Reid was chosen as toastmaster and a number of splendid talks were made by members of the department as well as by borough officials. The main topic of the evening was fire protection and equipment, and it seemed to be the opinion of those present that a new truck was essential to the better protection of the property in the borough. It was also the opinion of the members that the social evenings should come with more frequency as they served to bring the members of the department and members of the borough council into a more perfect understanding.

The committee which had charge of the arrangements for the event was composed of R. A. Metz, Joe Al-free, Kenneth Crabb, Emerson Kline, and Wm. Mobley.

A meeting of the W. C. T. U. will be held at the Washington Avenue Presbyterian church Thursday afternoon at 2:30 o'clock. This will be a Frances Willard Memorial, following which a social hour with lunch will follow.

Born—To Mr. and Mrs. Alex Williams, February 11th, a son, Donald William.

BIG "DISTILLERY" FOUND IN DONORA

What is thought to be the largest "distillery" in Washington county or in this section of the state, was located Saturday forenoon last in Donora, when Chief of Police Smedley and Constable Titus, who had secured a search warrant, entered a bakery located at the corner of Second street and Cherry alley in that borough.

The bakery shop was located on Second street, while another story, opening on Cherry alley was occupied as a garage. There was nothing on either of these two floors to cause suspicion, but the third floor was different. Here the still was found, and it was a very ambitious plant, capable of turning out a large quantity of "moonshine" every twenty-four hours.

The equipment contained, among other things a large permanent distilling copper tank with a capacity of about 50 gallons and with heating devices and condenser. The large tank, it was estimated, could produce several barrels of whiskey every day. A chemical bench with hydrometer jars and test tubes and other paraphernalia of the chemists room stood close by. Four large carboys, each of approximately 10 gallons capacity, one of them partly filled, were at hand for use in catching the distilled liquor as it dripped from the condenser.

A large number of fake labels were also found, which would indicate to the purchaser that "Large" and "Overholt" were being sold to the consumer. Two men were arrested on the scene, who said they had been employed by Pittsburgh men, who were at that time peddling the liquor to bootleggers. The discovery of the still is believed to have solved the question as to where so many bootleggers in this section of the valley have been getting their supplies.

MURDERER GETS 12 YEARS TO THE PEN

Pleading that he was intoxicated and did not know what he was doing, George Artis, of Millsboro, an Italian entered a plea of guilty to voluntary manslaughter before Judge McIlvaine in criminal court at Washington on Monday, for the killing of Grant Robinson at Millsboro on the night of October 20, 1920. Robinson received a death wound from a knife in the hands of Artis. He was sentenced to an indeterminate period of from four to 12 years in the Western Penitentiary.

Measure Provides for Modified Search and Seizure, and Repeals Brooks Law

ALSO HAS A NUISANCE CLAUSE

The Anti-Saloon League measure, providing for a modified search and seizure clause and calling for repeal of the Brooks high license law, was introduced in the House at Harrisburg Monday evening, by Representative William H. Martin of Allegheny county.

The measure defines intoxicating liquor as any drink containing more than one-half of one per cent of alcohol and would make violation through the sale or manufacturing anything stronger a misdemeanor, punishable with a maximum penalty of \$500 fine or three years' imprisonment or both. The minimum penalty is left to the discretion of the court.

The bill permits the possession and use of liquor in private homes for family use or entertainment of guests. It permits the manufacture of cider and fruit juices for home use.

Places where liquor is sold in violation of the law are declared to be nuisances to be dealt with as such by the courts. It expressly forbids the issue of any warrant to search a private dwelling without absolute and conclusive proof that such a dwelling is being used for the manufacture or sale of liquor and provides for search and seizure on the line of the present state law against gambling. It declares that the proof of the manufacture or sale of liquor shall raise the presumption that the same is for beverage purposes and places the burden of proof on the accused.

The entire present license system under the Brooks law would be repealed and no new machinery for enforcement would be created, the entire matter being left in the hands of the courts and law officers. The bill would become a law 60 days after approval by the Governor. It is said that Governor Sproul is not favorable to all the provisions of the bill.

PRESIDENTIAL MESSAGES

The nation is not especially concerned as to whether the next President reads his message to Congress or send them to be read by clerks of the legislative bodies. It will rejoice thoughtful people, however, if Mr. Harding makes these communications real messages in the sense intended by the Constitution. The country is thoroughly convinced that eight years of presidential addressing of Congress oratorically, orally, and for purposes of advancing personal opinions rather than describing the state of the Union and making recommendations based on recited facts, suffices.

A return to presidential state papers is needed. Mr. Wilson seldom sent a document to Congress. His predecessors almost invariably did. The average citizen could read a presidential message up to a decade ago and obtain from it a good understanding of the "state of the nation," could be acquainted with what the Government in its many departments was doing, what tasks lay ahead of it to be disposed of and how they were to be discharged. Mr. Wilson's communications to Congress, whether orally or written, set forth his ideas, his ideals, his dogmatic assertions in support of ideas and ideals, and his criticism of opposing views, but never giving the public the facts by which his conclusions could be tested.

The reports of department heads, rendered at the close of every fiscal year, are so voluminous and so general in their discussions as to be unreadable by the average citizen—even if he could get hold of them. This has been a growing evil, and under Mr. Wilson's influence the Cabinet members have more and more made their reports what his messages were—presentations of personal views and arguments for their adoption. Befogging the issues should be no part of any public officials' activities. The President needs to be exact, explicit, informative, thoroughly understandable in his official communications. If Mr. Harding will thus address Congress he will be talking at the same time to all the nation, and will be enabling the people to comprehend governmental understandings.

GAS FOR THE BOLL WEEVIL

Once more an evil thing has been diverted from its original aim and made to serve a good and useful purpose. Developing the idea of the ancient stink-pot, which when thrown demoralized the enemy with vile and suffocating fumes, the Germans invented poison gas with a view to slay thousands of their enemies without employing a single sword or firing a single gun. And now this engine of wholesale destruction is to be used in the legitimate effort to exterminate the boll weevil, that enemy of the cotton fields which may be likened to the plagues of locusts that afflicted ancient Egypt. The plan was conceived after successful efforts were made to exterminate wharf-rats and what has been described as a modern plague of locusts in the Philippines. There is every reason to believe

that the Chemical Warfare Service in cooperation with the Department of Agriculture will succeed in the Southern cotton field experiment also, for poison gas is the most effectual verminicide ever known. Every soldier exposed to a gas attack, who managed to survive by means of his mask, knows that no parasite on his person was left alive and that vermin of every kind in the trenches were utterly destroyed. It is said that the gas will not only envelop the cotton plants and destroy all animal life thereon but sink into the earth and kill every noxious rodent seeking refuge beneath the surface. The expense and the danger to heedless persons seems to be the only drawback to the proposition, and these will be more than offset by the enormous annual gain to the cotton industry through the extermination of the boll weevil or the crippling of its pestilential activities.

CALDER COAL BILL

Hearings on the coal licensing bill introduced by Senator William M. Calder of New York have been brought to an end, and it is announced by Chairman Robert M. LaFollette of the Manufacturers Committee, in charge of the measure, that an effort will be made to report the bill favorably and secure its passage before the end of the session on March 4th.

SPEERS MAY TAKE ACTION TONIGHT

A meeting of the council of Speers borough is to be held this evening, when the matter of an indemnifying bond to the State for the improvement of that section of the proposed new highway within the borough limits may come up for consideration. Friends of the measure are hopeful that some favorable action may be taken, but it is known there are interests which are opposed to the borough giving any bond or any damages that might arise from this improvement. If Speers borough takes favorable action it will remove all doubts as to who will pay damages which might be caused by the construction of the road, Dunlevy and Allen township having already agreed to file indemnifying bonds.

WHY THEY PARTED

"I was down with pain in my right side which at times almost crazed me. Most all of the doctors said operation. But what I want to tell you is the pain disappeared with the first dose of your medicine and I never see any since. May's Wonderful Remedy has the right name—gas, sour stomach and dyspepsia have left too." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. All druggists.

ORDINANCE NO. 371

An ordinance providing for a coal haulage right of way to Walter Pile through and in under an unnamed alley in the borough of Charleroi, Washington County, Pennsylvania, and authorizing the execution of an agreement therefor.

Be it ordained and enacted by the Burgess and Council of the Borough of Charleroi, Washington County,

Pennsylvania, and it is hereby ordained and enacted by authority of the same:

Section 1.

That the contract and bond of Walter Pile, this day presented to Council, and providing for the right of way hereinafter authorized, is accepted and approved.

Section II.

That a right of way for the installation, erection, maintenance and operation of a coal haulage road is hereby granted to said Walter Pile not exceeding 20 feet in width, through and in under an unnamed alley situated between Fifth Street and the Reservoir, near the Tuman property, in said Borough of Charleroi, as designated upon the plan attached to said agreement and bond and in strict conformity to and with the several terms, conditions and payments therein provided.

Section III.

The proper officers of the Borough are hereby authorized and directed to execute said contract in duplicate. Ordained and enacted into an ordinance this 9th day of February, A. D., 1921.

H. J. Repman,

President of Council.

Attest:

Ira L. Nickeson,

Clerk.

Examined and approved by me this 14th day of February, 1921.

Constipation Causes Serious Ills

If you are its victim, try strengthening your digestive and eliminative organs with Nature's Remedy—it's better than laxatives.

NR Today—Keeps the Doctor Away

One of the world's greatest scientists says that more than 90% of all human ills can be traced directly or indirectly to constipation. How many sufferers realize this?

Most of them continually dose themselves with so-called laxative pills, calomel, oil, purges and cathartics and force bowel action. To do that is a mistake. It weakens the bowels and liver and makes constant dosing necessary.

Why don't you begin right today to overcome your constipation and get your system in such shape that constant dosing will be unnecessary? You can do so if you get a 25c box of Nature's Remedy (NR Tablets) and take one each night for a week or so.

NR Tablets do much more than merely cause pleasant, easy bowel action. This medicine acts upon digestive as well as eliminative organs—promotes good digestion, causes the body to get the nourishment from all the food you eat, gives you a good, hearty appetite, strengthens the liver, overcomes biliousness, regulates kidney and bowel action and gives the whole body a thorough cleaning out.

And NR does this without a sign of griping, pain or unpleasantness. It works gently, but promptly and thoroughly. In a few days you notice the real result. You begin to feel that you are living again, with new strength, new energy, vim and pep and vigor. You soon find your bowels acting regularly without help. Try Nature's Remedy (NR Tablets) and prove this. It is the best bowel medicine that you can use and costs only 25c per box, containing enough to last twenty-five days. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

FREE JARS OF TURPO GIVEN AWAY

Local Druggists Giving Away 30c Jars of Turpo Free.
New Preparation for Treatment of
All Cold Troubles.

A new preparation for the treatment of cold troubles is being introduced here. It is called "Turpo"—the Turpentine Ointment. It contains distilled Turpentine, Camphor and Menthol, skillfully combined to get the very best effects from these well-known remedies for the treatment of all coughs, colds, inflammations and congestions.

Turpo is widely used in many States. 150,000 jars being sold annually and the manufacturers are so confident of its value that they are giving away, through the local druggists, a number of regular 30c jars free. People presenting the coupon below, at the nearest drug store, will receive the 30c jars as long as they last—other people presenting the coupon will receive liberal samples. We invite especially mothers with small children to try Turpo, as it has been found most valuable in the treatment of children's colds, preventing them developing into more serious trouble.

Turpo is a clear, pleasant smelling

salve or ointment. When applied externally it carries the medication right through the skin into the root of the trouble, relieving inflammation and congestion, and having a soothing, healing effect. In the early stages of a cold, if Turpo is applied up the nostrils, it clears the air passages, removes the cause of the trouble, and stops the cold at once. It does not blister the skin or stain the clothing. Doctors recommend it as an ideal home remedy.

Present this coupon to the nearest drug store today, and get your free package of Turpo.

COUPON

Good for one 30c jar of TURPO as long as the free supply lasts. Only one allowed each family.

HEAVY PRODUCTION IN 27TH DISTRICT

The production of coal in the 27th bituminous district, composed of parts of Fayette and Westmoreland counties, for the year 1920 amounted to 6,431,275 tons. The Pittsburgh Coal company led all other producers in the district with a total of 1,177,517 tons, followed in turn by the Washington Coal and Coke company and the Frick Coke company. Of mines in this immediate vicinity, the Monessen Coal and Coke company produced 236,019 tons and the Carter Coal company 24,346 tons. The Miller Coal company, with 4,000 tons, was the smallest producer.

Ohio has contributed as many--or is it only nearly as many? Presidents as Virginia, but that is no good reason for believing that the Garden of Eden was in the Buckeye State. Let Dr. George C. Allen, described as "philologist and geologist," does not hesitate to assert that Adam and Eve lived on the banks of the Ohio river.

WE WILL MEASURE UP

It was said of George Washington that the office of President of the United States was "out of his measure"--it fitted him better than any other man of his time.

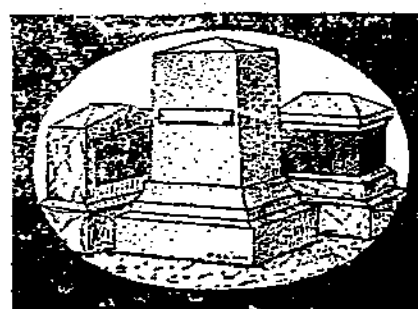

The life of each of us is cut to our measure--it is up to us to recognize and live up to its full capabilities.

This institution is doing its best to fulfill the purpose for which it came into being--to assist the people of this community, through the wise management of finances, to attain their full share of success.

On Washington's Birthday this institution is closed, to honor the memory of a great man who measured up to the work cut out for him.

WIFE TAKES HUSBANDS ADVICE

And Is Made Well Again
by Lydia E. Pinkham's
Vegetable Compound

Springfield, Mass.—"The doctor told my husband that I had to have an operation, otherwise I would be a sickly woman and could not have any more children on account of my weakened condition. I refused to have the operation. My husband asked me to try Lydia E. Pinkham's Vegetable Compound to see if it would not help me. For the first four months I could do but little work, had to lie down most of the time, was nervous and could eat hardly anything, but my husband was always reminding me to take the Vegetable Compound, which I did. Of my eight children this last one was the easiest birth of all and I am thankful for your Vegetable Compound. I recommend it to my friends when I hear them complaining about their ills."—Mrs. M. NATALE, 72 Fremont St., Springfield, Mass.

TAKES PAIN OUT OF RHEUMATISM

Keep Sloan's handy for backache strains and sprains, too

SLOAN'S Liniment has been sold for 39 years. Today it is more popular than ever. There can be but one answer—Sloan's produces results. Applied without rubbing, it penetrates to the affected part, bringing relief from rheumatic twinges, sciatica, sore, stiff, strained muscles, backaches, sprains, and other external pains, often the result of exposure. It leaves no mussiness, skin stain or clogged pores. Get a large bottle for greater economy. Keep it handy for use when needed. Your druggist has it. Three sizes—35c, 70c, \$1.40.

Sloan's Liniment

When Indigestion Attacks—Swallow DILL'S DIGESTERS

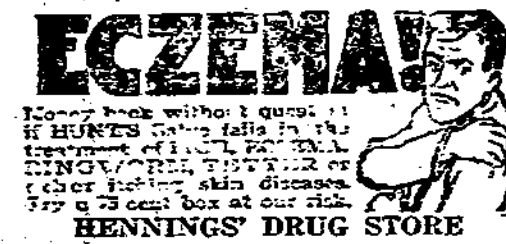

Relief comes the instant Dill's Digesters reach the stomach. Don't buy tablets you have to dissolve. Ask for Dill's Digesters at drug stores—25 cents. Made by Dill Company, Norristown, Pa., makers of Dill's Balm of Life.

No need to dissolve Dill's Digesters

Spring Sale of Barton Brand Dresses

With the Four Famous Features
They fit all women perfectly

Here It Is! Our Ever-Welcome FEBRUARY SALE of House Dresses

A Complete Display of All the New Spring Styles in a vast variety of Models of Unusual Charm

Just button two buttons and the dress conforms with any type of figure and fits perfectly at every point.

Just pull a thread and the skirt is lengthened. No ripping or restitching of seams necessary for this alteration

Never before have we presented to our patrons a more attractive collection of Dresses than these, and it is quite unnecessary to explain in detail, the merits of these dresses which are nation-wide celebrated because of the faultless fit, their Famous Features, their fineness of quality, and superb style.

The announcement of this Sale's start will call forth a tremendous attendance of women eager to purchase these Dresses of acknowledged and proven superiority.

Here are the Four Famous Features Found in These Dresses

Under Arm Shields that provide double service at points where all dresses show first signs of wearing out.

Two pieces of dress material attached to each dress. Ready for neat mending purposes in the event of rip, tear or wear.

Most Welcome of All--Is the Moderate Pricing of the Dresses on a Basis of Pre-War Standards

By delaying in the purchase of these dresses until the market reached its lowest level, we bought to the greatest advantage and now offer to our patrons, values of unusual character, which may truly be said to rival those of pre-war days. Nothing but a personal inspection of the garments can convey a true understanding of their quality and value.
